History Of Developing Successful Android App Having
Worked with more than 10 android projects as a team member and single.
Expert in Ionic App Developement For Inventory Application
Has an experience of working with more than two ionic projects.
Built Highly Polished MEAN STACK Progressive Web App For Inventory Application in the field of Hospitality , Manufactoring , Administration , Billing GST , Employee Quality Control
Overall 2yr experience in MEAN technology from angular1 to angular 4.Worked with more than 5 projects as a team member.

PROFESSIONAL EXPERIENCE

Software Developer
Ace InfoLabs , Calciut , kinfra
Joined as a Junior Android Developer , Promoted rapidly through series of project worked as a team member or by alone ,Strong Programming Design patterns implements which drastically reduced the making time and increased productivity. Currently manages two – plus project in a month with
- Increased Productivity
- New Ideas
- New Technologies
- MEAN / IONIC / Android development

Jr. Android Developer
Joined as a Junior developer, been a good team player and achieved successful Project Completion

SKILLS
AndroidDevelopment Kotlin / Java

MEAN STACK development Using Angular 4 , Expressjs, nodejs , mongodb /MySQL

Ionic2 App Development with Angular 2

API Generation in Laravel/Slim3

Design Assets in photoshop/krita/gimp

Expert in VCS using git commands

Linux Ubuntu Mate Lightweight environment works experience through Commands

Develops Games 2D on Godot Engine using Gdscript (swift + phython + javascript)

Languages used So far Java , kotlin , typescript , php , ruby for rails initial project setup , shellScript for Cron jobs , gdscript , scss ,mongo,Sql.

Servers used Apache , Tomcat,Ngnix for proxy reverse.

HIGHLIGHTS

Successful completions of projects till date

2.5 yrs proven development experience

Proven Design pattern and implementation for Successful completion either MVC or Component Directive based.

EDUCATION QUALIFICATION

Examination	Board/University	Institute	Year	Percentage
BE(I.S.E)	VTU	P.A College of Engineering	2015	68
12th	C.B.S.E	Chinmaya Vidyalaya	2011	68
10th	C.B.S.E	Chinmaya Vidyalaya	2009	75

WebApp Viewer,Lock screen (thief control).

TRAINING AND CERTIFICATION

Android App Development (Rubix IT development Training centre)
C++ Programming (CR & DC Global Solution) (JUNE 2013 – AUGUST 2013)
Linux Workshop (Spoken Tutorial Project, IIT Bombay) (6 APRIL 2013)
Counter Strike Gaming (TATHVA '11, P.A College of Engineering) (2 NOV 2011)
Python Workshop (GLUG, P.A College of Engineering) (28 SEP -29 SEP 2013)

PERSONAL DETAILS

Date of birth: 25-08-1992
Marital Status: Single
Nationality: Indian
Fathers name: N.A Moideen

DECLARATION

I here by declare that the information given above is best of my knowledge and references are available on request.
Place: kasaragod

(Abdulla Thanseeh)

ACADAMIC'S

Major Project

Securing broker-less publisher/subscriber system using identity based encryption

• To ensure data confidentiality, event confidentiality in peer-peer interaction
• To ensure confidentiality of events and reduce the cost of encryption and decryption

Seminar

Accelerated pattern matching using novel parallel algorithm

• Talk on different methods of pattern matching such as DFAC,PFAC...
• How new techniques have accelerated the pattern matching and reduce the cost.

PROJECT EXPERIENCE

Locator Android App for sending and receiving location with attachment with route navigation.
RouteMapia for complete tracking of gas delievery and orders using MEAN web app and android app.
PROX complete scraps materials usage and employee tracking app using MEAN web app.
VRAI TRACE complete hospitality management patient booking app using IONIC2.
FREE PBX ASTERISK setup using SIP phones for call management during bussiness hours.
LIBGDX 2d game development for a small adventure run game.
Slim3 oauth2 API generation for App development
MEAN Mahal administration complete web app for freelance client (USA).
PHP(No framework) Nexschool attendance management done for personal use.
Openfire XMPP setup done for sending/recieving messages/notification and checking online status for a chat app an connected to ionic app using strophe and android app using smackdependency.
